

**TOWN OF CRANBERRY ISLES
COMPREHENSIVE PLAN**

DRAFT
September 2008

**VISION STATEMENT
(Draft)**

Cranberry Isles aims to grow and prosper while fostering its values and unique character as an island community. The town is committed to sustaining a viable year-round and seasonal community and to supporting the traditional island way of life. This will involve providing adequate and diverse year-round job opportunities as well as developing and/or improving the public services, facilities and transportation system necessary to remain a viable year-round community. It will also require adequate protection of the town's natural resources and remote areas so that the quality of island life is preserved, there is sufficient fresh water, and the fishing community and other marine-dependent sectors remain strong.
