NEWSLETTER

Benches are coming along!

The kids are almost done building these amazing benches!

The four benches are well on their way to completion. Two have the mountains scribed into the backrest and two have a wave design. We are still working on the wording for plaques and will set Hugh's benches with a small ceremony in the warmer months of 2019.

CPR Instructor:

I am working on becoming a CPR Instructor with Jim Wilmerding's help. With the certification, I will be able to teach CPR and First Aid classes on the islands. It will allow for more versatility when responders need to re-certify, as well as when the public requests training.

Air Raid Sirens:

David Rackliff and I checked in on the Air Raid Sirens on Cranberry and Islesford on February 28. Both sirens are functional but need some refurbishing. The plan is to take the sirens down and spruce them up a bit and then mount them on their respective fire stations with switches so that they may be used in the event of a major emergency.

Pictured above:

Great Cranberry Island's Siren, currently located in the Church Steeple.

Pictured above:

Islesford's Siren, currently located at the old firehouse.
