# NEWSLETTER

Benches are done!

Keep your eyes peeled for a dates when the benches will be placed at their final locations. AND stayed tuned for a chance to bid on a bench!

## LifeFlight

A huge thank you to everyone who came out and helped with our most recent EMS call.

## **Wilderness EMT Training**

Cranberry Isles Rescue will be joined by members of the Northeast Harbor Ambulance Service and Swans Island EMS for a wilderness EMT training that will take place on Islesford from Thursday, April 18- Monday, April 22.

We've got some wonderful volunteers who will be making us lunch for during our training!

If you see the EMTs out and about say thanks. If you're interested in volunteering to be a patient during the training, please let me know!

## **Acquired Burn Structure**

The Islesford Volunteer Fire Department was recently contacted in regard to burning the Maypole. The current owners will be building a new structure on the property starting in early summer. This is an excellent training opportunity for our departments as well as for surrounding departments. Please keep your eyes peeled for more information in regard to the live fire training. Tentatively I am looking at hosting the training on Sunday, June 2.

# **SAVE THE DATES!**

## **IVFD & GCIVFD Training**

**April training**

**TBD**

**(Waiting to hear back from area fire chiefs to conduct a potential size up of the Maypole property)**

---

## **Live Fire Training**

**Tentatively:**

**Sunday, June 2, 2019**
