REPORT
OF
SUPERINTENDING SCHOOL COMMITTEE.

SUPERINTENDING SCHOOL COMMITTEE:

Walter Hadlock, Islesford, William G. Stanley, Cranberry Island,
Seth Rice, chairman, Cranberry Island.
Mrs. Jennie A. Stanley, secretary, Cranberry Island.

The superintending school committee has held two business meetings this year; the first to appoint a superintendent of schools and assign the duties of same by vote. It was voted at this meeting to continue the Baker Island school for the spring term, 1916, and to determine later whether a school should or should not be supported there by the town in the fall.

During the summer Hon. Payson Smith was consulted on this matter by correspondence first, and later by telephone, but no help could be obtained from the State towards its support, therefore the problem was settled by a second meeting of the committee, when it was decided the only intelligent way out of this difficulty was to have a school at Baker Island subject to the same privileges as the other schools in town.

Those who will remember the old verse "Do unto others as you would that they should do to you," etc, will not censure us for taking this stand on the question.

REPAIRS.

A window has been cut in the basement wall of the Islesford school building.

The chemical closets at Great Cranberry Island caused some dissatisfaction for a time at the beginning of the hot season, consequently a lesson was learned by experience that attention should be given them early in the

year. Parents would aid in keeping the closets in good condition by teaching their children what care should be taken of them. It is hoped that they will not serve again as a receptacle for glass bottles, wire, nails and such rubbish.

Twenty-five feet of hose for each school building (two), also a pump have been bought.

The repairing of the Baker Island school building has received due attention.

The walls of the Cranberry Island grammar room and halls were papered in buff-colored sanitos, giving a pleasing aspect to the room. It was planned to paper the primary room and halls the ensuing year.

A step-ladder is needed for the school building at Cranberry Island. New hardware is needed for the Islesford school building. Sutton Island's school building needs some repairs. Three flag staffs and one flag are needed. The appropriation for this purpose shall be separate from and additional to all other appropriations for schools.

FUNDS NEEDED.

It would be well to raise \$2,000 for the common schools for the ensuing year. Fifty dollars should be raised for school books. One hundred dollars should be raised for the tuition of those who attend high schools. The sum of \$100 is requested for the purpose of repairing the school property. The sum of \$100 is needed for supplies, etc., for the ensuing year. Money should be raised for flag-staffs, as stated above, for ensuing year.

SCHOOL LEAGUES.

There certainly has been good work, and plenty of it, done by each league member this year. Many conveniences have been bought by them. Another advantage of the league has been its meetings, where, after a short

business session, a program is carried out. The members show that should they wish they could present a very interesting entertainment, as the Islesford league has several times proven.

VISITORS IN SCHOOLS.

There were forty-one visits by citizens this year, out of which Islesford schools had thirty-five. One of the most discouraging points in the public school problem of to-day is the seeming indifference in the home. If parents or others would visit the schools more, it would help a great deal.

The two great agencies in the education of children, home and school, have identical aims. Neither can work effectively in ignorance of the other. Few parents realize how much their approval encourages the teacher and pupils. A plea is made that parents become more appreciative of the school and develop a more helpful and intelligent interest in the work of the school. It is only by sympathetic co-operation of the home and school that the child can ever secure his just deserts.

Should one feel a personal interest in any society, order or event, does he feel satisfied to listen to a description or report of such affair from another, or does he desire to see and hear for himself?

NUMBER OF SCHOLARS.

On April 1, 1916, there were 120 persons between the ages of 5 and 21 years. Seven will be 21 by April 1, 1917. The number of new scholars cannot be given at this date.
