If any resident owner after such notice, does not bring in such lists, he is thereby barred of his right to make application to the Assessors or the County Commissioners for any abatement of his taxes unless he offers such lists with his application and satisfies them that he was unable to offer it at the time appointed ”

# SCHOOL REPORT

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

To the Superintending School Committee and Citizens of Cranberry Isles:

I submit herewith the annual report of the schools of this town, with a complete statement of the receipts and disbursements.

The financial report probably requires but little, if any, explanation. The expenditures vary only slightly from year to year, since the major part of the funds goes for items of predetermined cost. The present budget, except in occasional emergencies, is adequate for the maintenance of the schools on the present standards. You will note an overdraft in the repair account, due to the unavoidable necessity of installing a new furnace at the Cranberry Island school. The heating plant installed is a thoroughly modern and efficient hot water system, and will not only improve the health conditions within the building, but will be also much more economical to operate.

The past year has seen some changes in the faculties of both schools. Although changes are not always desirable, we must bear in mind that they are sometimes unavoidable. The small school, and particularly the isolated school, is not always able to pay salaries sufficiently large to hold good teachers over an extended period. The larger towns present attractions, with single-grade systems and higher wages, which draw the better teachers from the smaller schools. We do believe, however, that it is advisable to have the best teachers, even though we are not able to hold them more than one or two years.

We regret the loss of several teachers during this past year. Mr. Harvey Kelley, who taught the Islesford grammar school two consecutive years with most satisfactory results, is now studying toward his college degree. He was replaced by Mr. Warren Hill, a graduate of the four-year training course at Gorham normal school. Mrs. Lennie Hambro, who taught the primary grades of Islesford last year, has retired from the profession. Miss Gertrude Stanley, who came to us from the

Clifton schools, is doing commendable work in the Islesford primary. Miss Stanley had two years of training at Castine normal school, with special training for her present position at Farmington normal last summer.

Mr. Ralph Springer is completing his second year in the grammar school at Cranberry Island. We believe that he has done an excellent piece of work in that school. Miss Wilda Dean, a graduate of the three-year training course at Wheelock School replaced Miss Irma MacLeod, who had taught the primary grades with marked success for several years, and who is now completing her work at Gorham normal school. Miss Dean was recently offered a position in the schools of Derby, Maine, and her resignation took effect on January 19 last. The primary position is now held by Miss Eleanor Cleaves, a graduate of the three-year course at Gorham normal school. Miss Cleaves taught the primary school at Ottawa last year.

We have attempted some changes in organization and administration during the past year and a half. We believe that they have proved worthwhile and beneficial. The quality of the teaching, and the influence of the teachers on the boys and girls, has been of high quality. We would, at this time, commend to your attention one urgent need of the schools of this town. Children of school age need constant attention to their physical welfare. We believe that the services of a school nurse, at regular intervals, would be a very decided asset to the welfare of the pupils. It is so frequently true that physical handicaps discovered and corrected at an early age prevent so much trouble in later years. We would propose, therefore, that an appropriation of \$50 be made annually, and expended for the services of Miss Katherine Noble, the school nurse at Southwest Harbor. Miss Noble would be available at least two days per term, and would visit both school and homes in an attempt to improve health conditions of the pupils. You would find her an excellent type of woman to help with the health problems of the communities.

In closing this report, may we again call attention to the fact that we stand ready to serve the communities in every possible manner. We welcome constructive criticism of the schools. We are always glad to talk over problems with any parent or citizen. Misunderstanding too frequently is the cause of criticism, and we urge that parents acquaint themselves with school conditions and school problems, rather

than accept the opinions of other. We sincerely request your cooperation with and your loyal support of the teachers who are serving you.

To the teachers, janitors, school committee, and the citizens in general, I express my personal appreciation of their loyal cooperation.

Respectfully submitted,

I. E. ADAMS,

Superintendent of Schools.
