

PROTECTING THE COMMUNITY FROM CLIMATE RISKS

Name:
Island:

When completed, drop off at Town Office by 10/15.

Review the challenges listed under this priority area in the table below. Use your colored dots to show how important you think it is for the town to take action on each one.

Place one dot per challenge to share your opinion.

	High Priority: I agree this is a challenge and action should be taken.
	Medium Priority: I agree this is an issue, but not a top priority right now.
	Not a priority: I don't think this is a current priority to address.

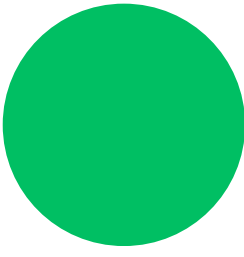

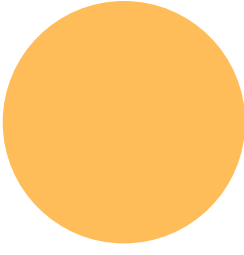

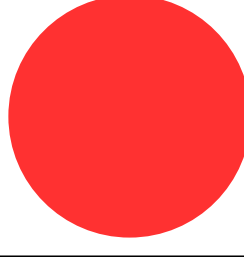

Challenge	Priority Level
Inadequate wildfire prevention measures and forest management	
Prolonged drought conditions impacting wells and increasing fire risk	
Warming ocean temperatures affecting fisheries	
Increased storm activity and sea level rise threatening public & private waterfront infrastructure	
Risk of damage to personal property from flooding, increased storm activity, and shoreline erosion	
Service disruptions from weather affecting boat travel	
Barriers to clean and reliable solar energy solutions	

Are there other challenges you feel are a priority to take action on?
Add a sticky note with your thoughts below.

MAINTAINING A LOCAL ECONOMY CONSISTENT WITH ISLANDS' CHARACTER

Review the challenges listed under this priority area in the table below. Use your colored dots to show how important you think it is for the town to take action on each one.

Place one dot per challenge to share your opinion.

	High Priority: I agree this is a challenge and action should be taken.
	Medium Priority: I agree this is an issue, but not a top priority right now.
	Not a priority: I don't think this is a current priority to address.

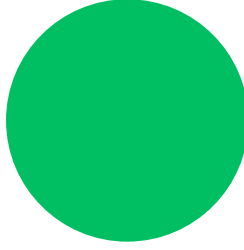

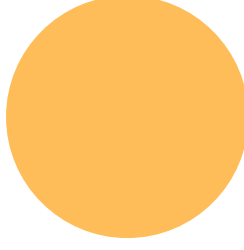

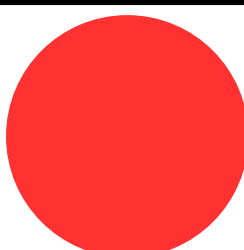

<u>Challenge</u>	<u>Priority Level</u>
Lack of year-round employment opportunities	
Environmental, regulatory, and other threats to the fisheries	
Lack of consistent, year-round commuter transportation options	
Lack of affordable and available housing opportunities	
Seasonality of current job opportunities on-island	

Are there other challenges you feel are a priority to take action on?
Add a sticky note with your thoughts below.

REDUCING BARRIERS TO YEAR-ROUND HOUSING

Review the challenges listed under this priority area in the table below. Use your colored dots to show how important you think it is for the town to take action on each one.

Place one dot per challenge to share your opinion.

	High Priority: I agree this is a challenge and action should be taken.
	Medium Priority: I agree this is an issue, but not a top priority right now.
	Not a priority: I don't think this is a current priority to address.

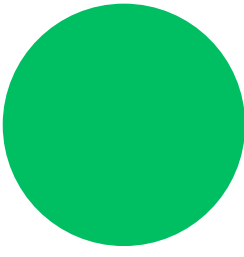

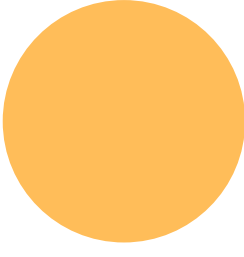

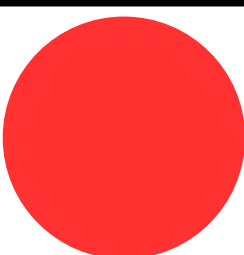

<u>Challenge</u>	<u>Priority level</u>
Shortage of available tradespeople for construction and repairs	
Lack of available and affordable land to build on	
Year-round homes being converted into seasonal rentals	
High cost of building materials and construction	
Limited pathways from renting to homeownership	

Are there other challenges you feel are a priority to take action on?
Add a sticky note with your thoughts below.

SUSTAINING A YEAR-ROUND POPULATION

Review the challenges listed under this priority area in the table below. Use your colored dots to show how important you think it is for the town to take action on each one.

Place one dot per challenge to share your opinion.

	High Priority: I agree this is a challenge and action should be taken.
	Medium Priority: I agree this is an issue, but not a top priority right now.
	Not a priority: I don't think this is a current priority to address.

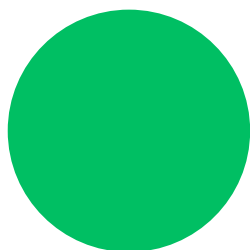

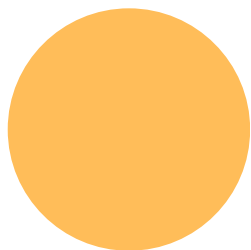

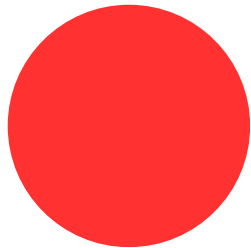

<u>Challenge</u>	<u>Priority Level</u>
Declining number of school-age children	
Lack of stable year-round employment	
Difficulties aging on island	
Lack of people to support/volunteer with local government and nonprofits	
Lack of affordable, year-round housing	
Lack of food and healthcare access on island	

Are there other challenges you feel are a priority to take action on?
Add a sticky note with your thoughts below.

MAINTAINING ESSENTIAL TRANSPORTATION INFRASTRUCTURE

Review the challenges listed under this priority area in the table below. Use your colored dots to show how important you think it is for the town to take action on each one.

Place one dot per challenge to share your opinion.

	High Priority: I agree this is a challenge and action should be taken.
	Medium Priority: I agree this is an issue, but not a top priority right now.
	Not a priority: I don't think this is a current priority to address.

<u>Challenge</u>	<u>Priority Level</u>
High cost of maintenance of multiple sets of town docks and related waterfront infrastructure	
Limitations of current town docks and mooring field (capacity, ADA access, sea level rise)	
Long-term viability of municipal and private ferry services	
Lack of parking on-island and off-island	
Continued maintenance of island roads	
Congestion and conflicting uses of public waterfront infrastructure (commercial, recreational, public transportation)	

Are there other challenges you feel are a priority to take action on?
Add a sticky note with your thoughts below.

PROTECTING THE COMMUNITY FROM CLIMATE RISKS

Each poster shows one of town’s top priorities and a list of specific challenges that have been identified. What strategies could help address these challenges?

Add a sticky note with your ideas to the table below.

Strategy: A specific, actionable step that can be taken to address a challenge or an issue.

Strategy Type	Examples
External Support	Outside funding, technical expertise, or partnerships (e.g., state/federal grants, off-island non-profits, etc.)
Town Government Led	Local policies, staffing, infrastructure, planning grants, partnerships, etc.
Community Led	Volunteer initiatives, on-island non-profit efforts, business-led solutions, etc.

Challenge	Suggested Strategy
Inadequate wildfire prevention measures and forest management	
Prolonged drought conditions impacting wells and increasing fire risk	
Warming ocean temperatures affecting fisheries	
Increased storm activity and sea level rise threatening public & private waterfront infrastructure	
Risk of damage to personal property from flooding, increased storm activity, and shoreline erosion	
Service disruptions from weather affecting boat travel	
Barriers to clean and reliable solar energy solutions	

MAINTAINING A LOCAL ECONOMY CONSISTENT WITH ISLANDS’ CHARACTER
